CHORA 816

Product data sheet

Chora 816 is the 2.5-way floorstanding loudspeaker from the Chora line. With its two speaker drivers with $6^{1/2}$ " (16.5cm) Slatefiber cone working in harmony in the bass, it is especially suited for Home Cinema set-ups. It is the ideal fit for rooms measuring up to 323ft² (30m²).

Key points

- Suitable for both hi-fi and Home Cinema configurations
- New speaker drivers with Slatefiber cone developed and manufactured in France by Focal
- Time Alignment thanks to the tilted stand: better soundstage
